

Ce Pretrial blends today's latest technologies with Pretrial Services best practices and standards to provide the industry's most comprehensive and secure case and data management system. Built specifically to accommodate Pretrial Services agencies' unique needs, Ce Pretrial's design was guided by the National Institute of Corrections and Department of Justice's 2011 study, *Measuring What Matters*, providing more effective and efficient tools for Pretrial Services agencies to measure and manage risk.

Highly configurable to reflect local policies and practices, Ce Pretrial leverages deep domain expertise and modern technologies to improve efficiencies and outcomes. This revolutionary system includes:

- *Automated defendant interviews and Pretrial Risk Assessments;*
- *Agency-defined "Keep/Release" Decision Matrix;*
- *Comprehensive Document Management, including pre-populated Recommendation Documentation;*
- *Court, Reporting and Drug Testing Calendar;*
- *Conditions and State/Local Criminal Statutes;*
- *Complete Case Note and Chronological Event Visibility;*
- *Office, Home, Telephone and Kiosk Reporting;*
- *Automated SMS Text and/or Telephone Reminders for all scheduled Court Appearances and Scheduled Reports;*
- *SMS Text Notifications for all FTRs/FTAs;*
- *SMS Text Chat for non-invasive communications with defendants;*
- *Customizable Analysis dashboard for key performance measurements and reporting;*
- *Standardized metrics for tracking key agency Performance and Outcome measurements;*
- *CJIS, HIPAA & FedRAMP-compliant, hosted on Microsoft Azure Government's Cloud Hosting platform.*

CePretrial houses a number of capabilities that can automate and streamline your pretrial agencies activities including:

## Analysis

Access to data that provides insight into your pretrial population and your agency's effectiveness

## Calendar

Maintain visibility into officers' and defendants' tasks through CePretrial's Calendar

## SMS Reminders & Chat

Utilize automated reminders & SMS chat to reduce FTA rates, while freeing up officers to focus on other tasks

## Assessments

Ce Pretrial automates Pretrial Risk Assessments and allows Pretrial officers to reference a decision matrix for release recommendations

## Drug Testing

Randomize drug testing groups, automatic client test notifications and record drug & alcohol testing results for further analysis

## Client Reporting Management

Automatically schedule office, home, telephone or kiosk check-ins, while utilizing Ce Pretrial's automated telephone check in system

## Accounting

From restitution to drug testing fees, manage accounting information, track payments and produce receipts

## Document Management

Securely store defendant and agency documentation in Ce Pretrial's CJIS compliant document management system

## Simplified Documentation

Ce Pretrial's MS Word Add-in allows users to fill out documents requiring defendant or case information with a single click

## Measuring What Matters

Maintain visibility into your agency's key performance indicators, defined by the DOJ & NIC Pretrial Case Study, *Measuring What Matters*
