

## Assessments Management

**Ce Assessments** provides access to proprietary and public domain Risk, Needs and Behavioral Screening assessments through an intuitive SaaS-based assessment management platform. Assessors can complete a variety of assessments, interpret results, view assessment history, and generate completed assessment reports. Ce Assessments provides real-time access to assessment data for reporting and analysis and is fully integrated with Ce Planning, utilizing assessment-identified needs to create dynamic Adult and Juvenile Case Plans, including Title IV-E.

Ce Assessments is a SaaS solution that provides a user-friendly application for an assessor to complete a variety of instruments, interpret results, view assessment history, and generate completed assessment reports. Some additional core features of Ce Assessments include:

- Access to a variety of public domain and licensed (proprietary) risk, needs and other behavioral screening assessments
- Ability to prefill assessments with data from another instrument, saving time and duplicate entry
- Automatically generated reassessment notifications
- Override capabilities with reviewer approval
- Generate assessment-specific completed reports
- Real-time access to assessment data for reporting and analysis
- Integration with Case Management Systems through standard web services API

The screenshot shows the Ce Assessments application interface. At the top, there is a header with the Ce Assessments logo and a search bar containing the name "Pamela Dancil". Below the header, there are two icons: a checklist with a plus sign and a bar chart. Underneath these icons, the text "Assessments" is followed by two filters: "Pending" and "30 days". The main content area displays a list of five assessment entries, each with a profile picture, a name and ID number, an assessment type, and a date.

Officers and case workers have full visibility into assessment history and all pending scheduled assessments and reassessments. Ce Assessments also provides the ability to download previously completed assessment reports. Users have added visibility into historical assessments with all completed assessments and their results being graphically represented displaying important trends reflected over time.

Ce Assessments provides visibility into your organization's assessment results and assesses risks and needs, with Analysis functionality allowing each user the ability to create their own statistical measurements through simplified queries. Drill into the data your tracking to get a better understanding of which assessments are successful within your jurisdiction.
